MARIKA GUARDI

<Full Stack Web Developer/>

About Me

I am a creative, determined, punctual, reliable, attentive and tidy person. I am equally productive when working alone or as part of a team. I'm highly motivated, quick to learn, and possess excellent problem-solving skills. I handle stressful situations well and I am not afraid to take on new challenges.

My latest project is **kāma-web.com**:

a fully customizable website that clients can manage from their own control panel.

Have a look at two examples, here:

searesidence.kama-web.com

tattooshop.kama-web.com
